Subject: Thank you letter

Dear Vitaliy Trifonovis,

On behalf of TB-CERT, I would like to thank you and Group-IB that support TB-CERT well. I appreciate having the opportunity to be trained the class “Reverse Engineering: Malware Analysis” from you.

Without Group-IB, I would not make my program successfully. Within 2 days, I’ve learnt and gained new experience from your class. It was wonderful and comprehensively class. All students have the same feedback about you that you are very knowledgeable on your topic and they will bring all these knowledge to apply into their organizational practice. Definitely, I as a TB-CERT, would love to get your support and work with you again in the future.

Lastly, thank you very much again for providing an in-depth class and made that day is one of the best one.

Yours Sincerely,

(Kitti Kosavisutte)

Chairman

Thailand Banking Sector CERT
