

Vietnam National Cyber Security Center,  
Hanoi, April 3rd, 2019

Dear Group-IB,

On behalf of the participants, thank you for your great cooperation in accomplishing the course “Malware analysis”. The collaboration between Group-IB, CyberLab and NCSC has been a great success.

We would like to express our gratitude to the instructor - Vitaliy Trifonov, who has been very supportive and resourceful during the course. The course would not be as successful as it has been without his help. We all appreciate your knowledge sharing and experience in malware analysis, this would enhance participants’s skills a lot as well as making a positive impact on our banking cyber security.

Amongst the contents provided, we are most impressed with the case study - finely crafted examples which have shed a light into the core problems. This definitely is the most effective section of the lecture, which has left a deep impression on everyone involved.

Once again, we are most grateful for your support and looking forward to working with you in the future.

Your sincerely,

Nguyen Huy Dung

*Deputy Director of Authority of Information Security, MIC  
Director of Vietnam National Cyber Security Center*
